Summary

As a web developer with three years of experience, I specialize in building web applications using React, NodeJS, and Python. I'm passionate about leveraging technology to create innovative solutions that enhance user experience. I'm also interested in learning more about the Rust programming language and how it can be used in future projects.

Skills

JavaScript TypeScript Python

Elixir Rust Tailwind CSS

React NodeJS REST APIs

GraphQL Database design

PostgreSQL MongoDB Git

Linux Bash AWS Docker

Education

British Columbia Institute of Technology
